the second edition of introduction to international economics is a non technical introduction to international economics that builds on the strengths of the first edition it analyses in a practical way how the internationalization of economic activities influences companies investors and consumers as well as foreign and domestic markets while the book is policy oriented the adequate historical and theoretical context is provided all concepts are discussed in a non mathematical way and graphic analysis is used to clarify explanations which makes it ideal for business and mba students international economics is attracting ever more attention due to the recent worldwide economic crisis and this book gives a truly global perspective by discussing real world examples and case studies from different sectors including from the americas europe and asia new features in this edition include the following updated empirical material the chapter on balance of payments the foreign exchange market and their relationship has been completely rewritten expanded material on developments in the european monetary integration process more focus on issues in emerging economies such as the practice and lessons of currency boards dollarization and the occurrence of currency crises

the seventh edition of the economics of european integration provides students with an accessible presentation of the facts theories and controversies that are driving rapid change at the heart of europe this new edition covers crucial updates on the impact of brexit and covid 19 and offers an expert analysis of the contemporary status of integration within the european union key features and updates wide range of learning features including boxed examples and illustrations end of chapter summaries self assessment questions and essay questions fully updated to include new discussions and examples such as the new budget which has significant implications on european bonds immigration and climate change two new chapters highlighting the impact of both brexit and covid 19 on the eu an online learning centre with lecture outlines powerpoint presentations and an image library richard baldwin is professor of international economics at the graduate institute geneva having been a visiting professor at oxford and mit he is editor in chief and founder of voxeu org since 2007 and he advises governments around the world on globalisation and integration issues having served in the bush sr white house in 1990 91 charles wyplosz is professor emeritus of international economics at the graduate institute in geneva where he also served as director of the international centre for money and banking studies he is a fellow of cepr and of the european economic association as well as a founding managing editor of the economic policy journal

comprehensive current and unique in approach the only textbook to discuss both the costs and benefits of monetary unions the thirteenth edition of this established textbook examines the monetary union through theory empirical analysis and policy implications allowing you to develop a balanced understanding of different arguments and perspectives de grauwe brings rich detail and clarity to the subject ensuring that you understand the content each chapter concludes with questions and further sample essay questions hosted online giving you opportunities to practise for assessments new to this edition updated evaluation of the new fiscal rules that the eu authorities have introduced since the sovereign debt crisis further coverage on the quantitative easing measures introduced by the european central bank new discussion of green money and safe assets book jacket

embedded in the evolving comparative regionalism literature this book offers a systematic analysis of the factors positively and negatively influencing regional institution building the ruptures caused by the eurozone crises the coronavirus pandemic and by brexit have renewed the interest in the impact of crises and critical junctures on regionalism here defined as regional institution building drawing from critical juncture research and historical comparative analysis this volume uses the cases of european and east asian regional institution building to systematically analyse institutional transformations during specific historical turning points and critical juncture moments wunderlich s research offers an in depth analysis of the interrelated drivers spoilers and dissolvers of regional institution building processes in europe and east asia and addresses key questions including under what conditions does regionalism take hold what is influencing the initial institutional design choices what is the impact of historical experiences and well entrenched norms and ideas what are the roles of regional leaders how do external factors influence regional institution building what turns a crisis into a critical juncture and are such junctures threats or opportunities what accounts for variations in institutional responses to crisis events across different regional settings this book will be a valuable resource for scholars of regionalism region building regional governance and international relations of europe and east asia

this edited volume approaches regionalism as one potential pattern in a changing global order since the end of the cold war different forms of territorialization have

emerged and we are confronted with an increasing number and variety of actors that are establishing regional projects this volume offers an innovative contribution to the study of this new complexity by exploring constellations of regional actors spatial scales and imaginations beyond state centred perspectives as well as on multiple often overlapping levels the chapters analyse the emergence trajectories and outcomes of regionalisms from the perspective of the global south specifically concentrating on regional projects in latin america and africa but also in the asia pacific they attempt to identify the specific conditions and junctures of different forms of region making in their external global and internal local national dimensions the volume also places special emphasis on interactions spatial entanglements and comparisons between regionalisms in different parts of the world by expanding beyond the perspective of north south transfers this book seeks to better understand the dynamics and diversity of interregional interactions this volume will appeal to scholars of global studies international political economy international relations human geography and development studies as well as area studies specialists who focus on latin america and africa

the award winning the new palgrave dictionary of economics 2nd edition is now available as a dynamic online resource consisting of over 1 900 articles written by leading figures in the field including nobel prize winners this is the definitive scholarly reference work for a new generation of economists regularly updated this product is a subscription based product

scientific essay from the year 2009 in the subject business economics economic policy university of edinburgh school of law course economics and policy of european integration language english abstract part i of this paper will illustrate that although the currency union signified the next significant step along the european integration ladder that was built already back in 1958 it must be recognised that the single market is not yet fully established in europe hence the phrasing of the title question suggests the reading of whether or not the single currency is absolutely necessary for the completion of the single market part ii is dedicated to the central aim of this paper namely to assess to what extent the common currency furthers or indeed counteracts the achievement of the fundamental single market objective while this essay goes to lengths in highlighting the desirability of the single currency and its many benefits that help further the achievement of the single market it does however maintain that the currency union is not absolutely necessary for the establishment of the common market indeed as has been noted it is possible to have a single market without a single currency furthermore as will be shown in the forthcoming sections of part ii there are even situations in which the single currency might be harmful to the single market and to the union although the answer to the title question of whether a single currency is really required must necessarily be in the negative since the single market could potentially exist without the euro this essay will conduct an extensive evaluation of the successes and failures of the euro and the economic and monetary union emu to further the single market objective in order to illustrate that the euro has nonetheless both enabled it to function much more efficiently and helped to bring european economic and political integration to previously unknown levels in this sense the single market does not necessarily require a single currency but the euro will nevertheless be hugely important in furthering its establishment

ebook the economics of european integration 6e

places do well when they promote transformations along the dimensions of economic geography higher densities as cities grow shorter distances as workers and businesses migrate closer to density and fewer divisions as nations lower their economic borders

and enter world markets to take advantage of scale and trade in specialized products world development report 2009 concludes that the transformations along these three dimensions density distance and division are essential for development and should be encouraged the conclusion is controversial slum dwellers now number a billion but the rush to cities continues a billion people live in lagging areas of developing nations remote from globalization s many benefits and poverty and high mortality persist among the world s bottom billion trapped without access to global markets even as others grow more prosperous and live ever longer lives concern for these three intersecting billions often comes with the prescription that growth must be spatially balanced this report has a different message economic growth will be unbalanced to try to spread it out is to discourage it to fight prosperity not poverty but development can still be inclusive even for people who start their lives distant from dense economic activity for growth to be rapid and shared governments must promote economic integration the pivotal concept as this report argues in the policy debates on urbanization territorial development and regional integration instead all three debates overemphasize place based interventions reshaping economic geography reframes these debates to include all the instruments of integration spatially blind institutions spatially connective infrastructure and spatially targeted interventions by calibrating the blend of these instruments today s developers can reshape their economic geography if they do this well their growth will still be unbalanced but their development will be inclusive book cover
